

Progression to Further Study in Health Science Professions Diploma Level 2

Course Overview

The Level 2 Diploma in Progression to study in Health Science Professions offers a flexible and funded way to gain a full Level 2 qualification, and progress on to an Access to HE course. No matter which Health Science you are keen to explore this Diploma will open the door to numerous pathways to Higher Education. The Diploma will take you through a number of beneficial topics such as Nutrition, Skeleton and muscles, Health Studies and the physical development of children and young people. The course duration is around 9 months but can be completed in a shorter timeframe should you wish. All learning materials are provided via our online learning portal and work is submitted marked there too. You will not need to attend any classes, you will complete everything from home, but with the support of our experienced tutor team.

What you will learn

The Diploma consist of the following units, picked for your academic progression and career development.
Nutrition Performance and healthy eating Physiology and exercise Human physiology Developing personal study skills Human health and disease Academic writing skills Human sex and reproduction Skeleton and muscles Prejudice and discrimination Understanding mental health Introduction to Health Studies Understanding physical development of children and young people

Entry Requirements

You must be over 19. You must be living in England and in a Non-Devolved area, we can check this for you. If you are not British Citizen we may need to complete a Right to Study assessment to determine funding.

How you will be assessed

There are 12 units to complete, assessment method is question and answer, there are no exams, observations or projects to do. You submit your answers inline with agreed submission dates. Our tutor will mark your submission and provide feedback. If any work requires revisiting guidance and support will be given along with new submission deadlines.

Course Progression

Having a Level 2 Diploma allows you to enrol on to an Access to Higher Education course should you wish to explore a professional career in Health Sciences. This could be Midwifery, Social Care, or any other specific nursing pathway. As well as covering Health Sciences, the Diploma will support and develop your study skills and academic writing skills.
