

Award in Computing and Information Security level 1

Course Overview

Cyber attacks target both individuals and systems, and can cause major disruptions. This programme has been designed to provide you with knowledge and understanding of the basic principles of internet safety, including understanding the risks associated with using the internet, safeguarding self and others when working online, maintaining data security and following guidelines and procedures. This course is relevant to all employment sectors.

What you will learn

During this programme students will gain an understanding what is meant by 'cyber security' and cyber threats. They will understand how to keep themselves safe from cyber attacks and know to keep a network safe from cyber criminals. Students will gain an understanding of the legal aspects surrounding online safety for businesses.

Entry Requirements

This course is designed for anyone who uses the internet for various tasks including - work, study and personal tasks such as online banking.

 You must be aged 19+.
