

Construction Management HTQ Higher National Diploma

Course Overview

This course is designed as an extension for those who have completed their Higher National Certificate in Construction Management and would like to progress onto the Higher National Diploma and study on a one-year full-time basis. The course consists of mandatory and optional subject units, covering topics such as Project Management, Contract Management, Construction Technology, Sustainable Construction, and Group Project.

What you will learn

There are five mandatory subjects areas (all 15 credits) that will need to be achieved, these are:
- Project Management
- Personal Professional Development
- Construction Technology for Complex Buildings
- Maintenance and Operations
- Group Project.

A further three optional units will be agreed upon, completing eight modules in total (120 credits). You will complete these through assignments, case studies, reports, presentations, and group project work.

Entry Requirements

To enrol on this course, you will have already achieved the Higher National Certificate (HNC) Construction Management qualification.

Course Progression

Academic progression:
240 credits transferable to a BSc Construction Management top-up degree (2 years part-time) at Leicester College.
Credits are also recognised at other HE institutions at their discretion.

Career Progression:
This course is suitable for those either just starting their career in construction management or for those already in the construction industry looking to progress further into more management or leadership roles.

What Happens Next

Apply online via the College website. You will be contacted to attend an interview if required, or you will be sent a conditional offer according to the entry requirements for the course. You will then be invited in to enrol for your chosen course of study.
